

HOW WE MAKE MONEY AND MAKE A DIFFERENCE.

MAKING MONEY.

MAKING SAFETY A TOP PRIORITY FOR CN RAIL

Following disastrous track derailments in 2005, we engaged CN Rail about taking corrective safety measures. Since then, CN Rail has taken a number of steps towards improving safety and linking it to executive pay. As a result of our engagement CN Rail now:

- Reports on safety performance in their annual Responsibility Report
- Employs a Chief Safety Officer
- More clearly explains how ESG considerations (particularly safety metrics) impact executive bonuses, leading to their receipt of the 2012 Governance Gavel Award for "Best Disclosure of Approach to Executive Compensation"

IMPROVING MINING OPERATIONS TO PROTECT HUMAN RIGHTS WITH GOLDCORP

We've worked with Goldcorp to ease explosive controversies surrounding indigenous people's rights, water impacts and social tensions caused by Guatemalan mining operations. As a result of our proposal, Goldcorp has:

- Voluntarily increased royalties paid at the Marlin Mine
- Published a new Human Rights Policy
- Committed to respect the rights and traditions of indigenous people

MAKING A DIFFERENCE.

Why Ethical Funds?

- Over 25 years as Canada's leader in socially responsible investing¹
- Most comprehensive family of socially responsible mutual funds in Canada
- Best-in-class, independent portfolio managers
- Canada's largest in-house team of socially responsible investment analysts
- Multiple award-winning funds

¹Based on 2014 investor economics data of Canadian retail mutual fund market share.

Socially Responsible Investing At Ethical Funds

For us, socially responsible investing is about marrying traditional financial analysis with environmental, social and governance (ESG) analysis during investment decision-making. We believe companies that combine strong financial performance and best ESG practices have the greatest potential to deliver returns over the long term.

The Ethical Funds Investment Process

FINANCIAL ANALYSIS

We begin with top independent managers focused on performance and risk management. They conduct financial analysis to evaluate corporations: how a company fares in terms of profitability, solvency, liquidity, and stability.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE ANALYSIS

We then leverage environmental, social and governance analysis, using a proprietary evaluation process that focuses on identifying less quantifiable risks not reflected in financial statements and often overlooked by traditional financial analysis.

PORTFOLIO CONSTRUCTION

Companies that have passed both the financial and environmental, social and governance analysis criteria and have satisfied the fund's mandate are then selected to be included in Ethical Funds.

OUR INDUSTRY-LEADING
ENVIRONMENTAL,
SOCIAL AND
GOVERNANCE
EVALUATION PROCESS

HOW IT WORKS:

1

Automatic Exclusions - Companies who do not meet our minimum environmental, social and governance standards are automatically excluded. Companies always ineligible are those primarily involved in tobacco, weapons or nuclear power.

2

Baseline Sector Expectations - To be included in Ethical Funds, companies must then meet our sector specific "baseline expectations" developed through research.

3

Ongoing Monitoring - Once companies are held in Ethical Funds, they are continuously monitored to ensure there are no major breaches of management ethics or changes in responsibility practices. If a company is no longer considered eligible for client portfolios, holdings are sold.

The Ethical Funds Difference - Corporate Engagement

Our comprehensive corporate engagement program is the most extensive of its kind in Canada. Every year we choose approximately 50 companies held in our funds to be part of our Focus List for the coming year. We work directly with these companies to improve their environmental, social and governance practices.

THREE STRATEGIES WE USE TO ENCOURAGE AND AFFECT CHANGE ARE:

MAKE MONEY. MAKE A DIFFERENCE.

Exceptional Socially Responsible Investment Solutions

Through the Ethical Funds' investment process, we offer a unique approach to investing that is designed to make money and make a difference.
